casio ctk-550 keyboard manual

About the Song Book The song book included with this keyboard contains scores for most of the keyboards Song Bank tunes. Note that some of the keyboards Song Bank tunes may not be included in the song book. The scores in the song book are rated according to their level of difficulty as shown below. Level C songs are the most difficult, while Level A songs are the easiest... The numbers that appear at the beginning of each score indicate the number of beats in the lead-in beat count.

NOTICE This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: Reorient or relocate the receiving antenna. Increase the separation between the equipment and receiver. Connect the equipment to an outlet on a circuit different from that to which the receiver is connected. Do not mix battery types. Do not mix new batteries with old ones. Never leave dead batteries in the battery compartment. Remove batteries when not using the unit for extended periods. Never try to recharge the batteries that are specified for the power supply of this unit. Do not expose batteries to direct heat, let them become shorted or try to take them

If a battery leaks, clean out the battery compartment of the unit immediately, taking care to avoid letting the battery fluid come into direct contact with your skin.

6 Choosing a Power Supply Using AC power

An AC adaptor AD5, optional is required when using household current. Use only genuine CASIO adaptor with the same voltage rating 100, 117, 220 or 240V as the power supply in your area to prevent damage to internal components. Be sure to turn the power of the unit off before you connect the adaptor to the unit. Plug the AC adaptor into the AC outlet and the cord into the unit. This will automatically cutoff the battery power supply.

AC adaptor AO50\1 AC outlet Important

The adaptor may become warm when it is being used. This is normal and does not indicate any problem. Be sure to unplug the adaptor from the power source when you are not using the unit. Whenever connecting or disconnecting the adaptor, be sure that the power of the unit is switched off. Never use a power supply that does not match that specified for the unit. Doing so can damage the adaptor or your unit.

Auto power off function

Power is automatically cut off approximately 6 minutes after the last operation of the unit. Power supply can be restored by switching power OFF and then ON again.

To cancel the auto power off function

To cancel the auto power off function, turn the power switch ON while holding down the TONE button. Set the MODE selector to NORMAL.

Volume sliders

MAIN VOLUME slider Adjusts the overall volume of the keyboard.

Power Supply Important Battery InformationTemperature extremes or playing at very loud volume settings can shorten battery life. Auto Power Off. The Digital Keyboard will turn off automatically to preserve battery power if you do not perform any operation for about six minutes Auto Power Off. To disable Auto Power Off. Hold down the TONE button while turning on the keyboard to disable Auto Power Off. This means that when a rhythm or autoaccompaniment pattern is being played by the keyboard, the number of notes polyphony available for keyboard play is reduced. Also note that some of the tones offer only 6note polyphony. Digital Sampling. A number of the tones that are available with this keyboard have been recorded and processed using a technique called digital sampling. To ensure a high level of tonal quality, samples are taken in the low, mid, and high ranges and then combined to provide you with sounds that are amazingly close to the originals. You may notice very slight differences in volume or sound quality for some tones when you play them at different positions on the keyboard. This is an unavoidable result of multiple sampling, and it is not a sign of malfunction. Percussion sounds Example 99 PERCUSSION This tone assigns various percussion sounds to the keyboard. Sound Effect Tones With sound effect tones 77 through 79, the type of sound produced depends on the octave where the key you press is located. When 78 PHONE is selected available sound types are PUSH TONE 1, PUSH TONE 2, RING 1, and RING 2. Auto AccompanimentThe bass and chord parts are played using sounds and tones that are automatically selected to select the rhythm you are using. All of this means that you get full, realistic accompaniments for the melody notes you play with your right hand, creating the mood of a oneperson ensemble. Appears when RHYTHM button is pressed.
